ติดตาม

Before meeting with fmr AZ Gov Jan Brewer this week @realDonaldTrump signaled he'd sign a temp spending bill without $$ for the border wall. AFTER meeting with Brewer: President says "no wall funding, no signature." Did you change his mind @GovBrewer?

**Jan Brewer** @GovBrewer
I've said it before and I'll say it again - Secure our Borders! As we discussed in the Oval Office last night — @realDonaldTrump will get it done. Thank you @POTUS

Kari Give it up. Let's move on. There is no grounds so stop asking dumb questions

 1   1

**Kari Lake Fox 10** @KariLakeFox10 4h
Legitimate question. Democrats are currently asking that question in their caucus. I want to know what Americans think.

**Yooper Ray** @YooperRay Apr 23
Replying to @KariLakeFox10 @realDonaldTrump
Yes....get it out of the way to make further fools of themselves. Quit talking about it. Do it! Then....eat it. Trump will win easily in 2020.

 6  14  159

**Clay Ritchie** @SKSSKanz · Apr 23
Remember Clinton s impeachment in 98? The house did indeed impeach. And

No. Neither Antifa nor Protestors caused tear gas. Police used it, unprovoked, to disperse crowd. Brother is a police officer there onsite

Antwort an @KariLakeFox10

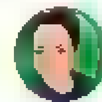

She said, "think of the fantasies."

@MargaretAtwood clearly understands sexual violence and societal misogyny and she wrote a famous short story—mandatory reading for many college students—called "Rape Fantasies" to explore this difficult to process and taboo concept.

This is still one of the most difficult, heart-wrenching stories I've ever covered. The loss of these 19 men is still felt. May their sacrifices never be forgotten. I'm thinking of their families today.

**Doug Ducey** @dougducey
It's been six years since the devastating Yarnell Hill Fire. 19 elite firefighters gave it all to protect their community. We will never forget the #Yarnell19 and their heroism and selfless service

Antwort an @ESPINOZA6DEEP @azfamily und 2 weitere

We've not yet heard from both sides. The veteran who was beaten and left in intensive care has not told his side of the story. Right now we've only heard from the defendant and his attorney.

20:30 - 31. Aug. 2019

1

**AZWILDCATS1** @ESPINOZA6DEEP · 1. Sept

Antwort an @KariLakeFox10 @azfamily und 2 weitere

Well we just might not either, y'all jumped the gun then (why report) but like his attorney and Kanye said before the media is always ready to crucify you. You guys just heard Veteran and bent over backwards

2

**AZWILDCATS1** @ESPINOZA6DEEP · 1. Sept

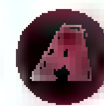

I seen police departments put out pictures of suspects and just say... we need the public help finding this person of interest without saying everything you guys report. Now the case may not stand

Would be nice to have more Dbacks fans, but good job to dodgers fans for paying to see their team lose

1 9

**vi** @mstunech Aug 31

Which means you guys have paid more to lose this season considering we're 17 games ahead of you unless of course you haven't been paying to see your team

1 6

**Nick Drakovich** @drakovich1 Aug 31

17 games ahead and losing 3 in a row... getting ready for that Dodgetober break down again huh

1 1 7

**vi** @mstunech Aug 31

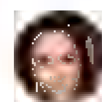

If you've been paying attention I think you would know we have a solid team and no stress right now ... your playoff margin is hanging by a thread... speaking of haven't heard diamondbacks and playoffs in the same sentence in...

Good for @MeghanMcCain for calling-out the "cancel culture" who locate, label, & lash-out at those with different perspectives/beliefs, then turn their life into a living Hell.
It's insane, intolerant and dangerous behavior.

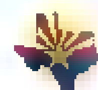

> **Meghan McCain** @MeghanMcCain
> No one is misinterpreting - you want to put a list together of Trump supporters/republicans in Hollywood and end their employment, publicly shame them, possibly invited god knows what into their lives. THIS is the "tolerant Hollywood left" and no amount of backtracking changes it

I cried when I saw that pug that was so mistreated and was skin and bones. No pug should be treated that way.... I thought of you and realized why you didn't want to do that segment... Why do people treat their animals like that? I just don't get it... My female is deaf

That story was so horrible. The pug kind of looks like my Sushi and it made me so sad to hear what this sweet little pug had been through.

This is such an amazing tradition to remember the victims of 9/11. 18th year of The Healing Field and the emotions are still just as strong as ever for those witness this incredible memorial. #NeverForget #September11 #TheHealingField

**Jon Noetzel** @fox10PhotoChief

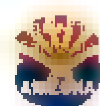

The Healing Field is in place, a sobering memorial erected every year at Tempe Beach Park. Ceremonies to remember the victims of 9/11 begin at 5:46am tomorrow, the moment the first plane struck the WTC. #heavyheart #remembering #September11th

Is it not PC to state that terrorists were the ones behind the massacre and destruction on 9/11?? Have we gotten to a point where we cannot state that? I didn't think that was political—I thought it was a fact.

If you know that the fawn pugs have two stage fur which helps them stay cool in the heat and the black pugs have a single stage fur so actually you can shave them in the summer but the fawn ones it s a no no... Only because they can overheat quicker... True fact!!

It wouldn't matter much. It is very difficult to move kids around as the districts don't support it. Also these problems exist in many schools, you'll never outrun them. Short term needs are security based, longer term mental health

   2

**Ann dooh** @AnnDooh Sep 12

**Karie Dozer** @kariedozer · 22h

Two #WorldSeries2019 observations.

1- There is nothing, I repeat, NOTHING better than a Game 7.  2- I will listen to #bigPapi talk about literally ANYTHING, but especially baseball, until I can't listen to anything anymore The guy is completely entertaining. That is all

**Kari Lake** @KariLakeFox10

Follow

Replying to @kariedozer

I agree with you. On both counts!
1)Big Papi could do a cooking show read instructional booklets and I would watch.
2) And anybody who's NOT watching game seven— I don't want to know.

findingkevin @findingkevin1 · 11m

This isn't the cops fault. This shows how ridiculous California is now that the politicians are the police. The politicians have decided what laws will be enforced and I'm sure this will be the next law they prohibit police from enforcing.

1

Kari Lake @KariLakeFox10

Follow

Replying to @findingkevin1

They know if they ticket a BART rider they will most likely pay the ticket. That's $$ for the city's coffers.
But if they ticket a guy defecating on the street, the ticket will not be paid.

California law enforcement only look to cite/arrest those who appear to be able to pay fines. Vagrants, criminals, drug users, etc. do not have the means (other than what the state gives them to support their lifestyle) so they are simply ignored.

Yep! They know if they ticket a BART rider they will most likely pay the ticket. That's $$ for the city's coffers.
But if they ticket a guy defecating on the street, the ticket will not be paid.

Such a terrible day. This morning a 14-yr-old hit and killed on the way to school. Tonight a 12-yr-old hit by school bus dies in Goodyear. So much pain for the families and school community. #Prayers

You should do a segment on the news showing all the times that these Democrats have said "the founders" were nothing more than an old white slave holders who should be irrelevant or worse. Now all of a sudden they are brilliant & would demand impeachment.

Everybody wants to be offended
True story
So last night after seeing a movie, my GF & I were talking in a parking structure and I noticed a guy walk up to cars, check the passenger side door then go around to the drivers side
He did that repeatedly
So I approached him and

Snarky Bear @michaelsnarky · 10h

I asked what he was doing he said he was just putting biz cards in the doors. I asked why, then, he was checking the passengers side doors?? (Which I observed him doing for no apparent reason than to see if the cars were locked)
His response
He said he was "offended."

Phoenix City Council ready to vote on 200% fee/tax increase for users of Lyft & Uber. Both rideshare companies have threatened to cease doing business at the airport if the PHX council pass this. What do you think the council should do? Vote to increase fee/tax? Or not?

**EduardoSantiagoFOX10** @esantiagoFOX10
Full house at Phoenix city council chambers as council members get ready to re-vote on the future of fees for Uber and Lyft at Sky Harbor International Airport. #FOX10Phoenix

Pros of being married to me:
- Will take out the garbage up to once per month
- Pointing out typos in film credits
- Crippling social anxiety gets you out of boring parties

Cons:
- <cracks knuckles> okay, let's do this. 1/324

**Kari Lake** @KariLakeFox10

Follow

Replying to @exjon

Will you be posting the 'cons' once-per-day over the next 324 days or will they all be posted today in a 324-part-Twitter-thread? Just wondering how much time to carve-out for this.

Especially odd is that it happened in Wuhan. Wuhan houses their most advanced biological and infectious disease research lab.
Severity should have been known earlier because of that.
Same as if an outbreak here in Atlanta, home of CDC

I may be overreacting, but I'm a germophobe (w/ an asthmatic at home).
On Monday, I ordered medical facemasks after hearing about the #coronavirus. Glad I did.
I'm hearing reports stores are running out of them. 😳
Will you wear facemasks in public to prevent catching the virus?

**MPR News** @MPRnews 4h

UPDATE: In a previous version of this story, The AP erroneously reported the church was asking older congregants to leave. The church has asked current members to wait 15-18 months after the Cottage Grove campus relaunches, but it didn't single out older members in that request.

6 7 10

**Kari Lake** @KariLakeFox10

Follow

Replying to @MPRnews

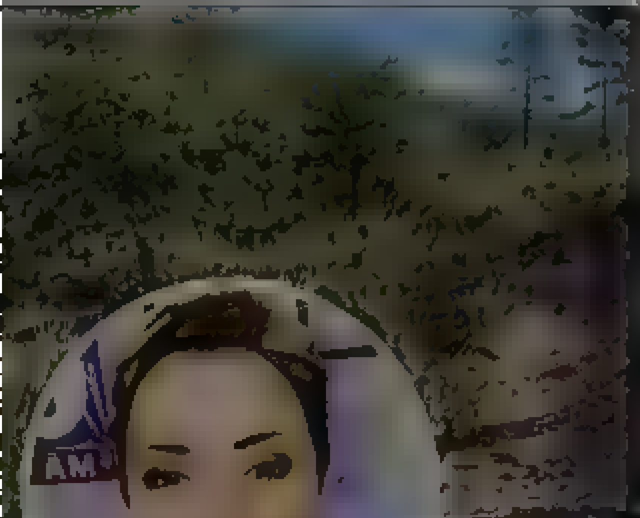

Curious why they want them to wait 15 to 18 months to attend a church they have been faithful to for so many years or decades? What benefit could that serve for Church and their "relaunch" or those loyal churchgoers?

I spoke w/ medical professional involved w/ Arizona's first novel #coronavirus case & another patient transported to the same hospital w/ cv-symptoms. Source says both are ASU students w/ recent travel to China. But only one was tested for the virus. Summary of our convo below. ⬇️

I spoke with a medical professional with direct knowledge of the first confirmed novel coronavirus case at ASU. This medical professional reached out to me on the condition of anonymity because they are not convinced enough is being done to prevent the spread of this highly-contagious virus.

My source tells me a male student came in to an Valleywise Health (formerly known as Maricopa Medical Center) on Saturday with flu-like symptoms. The CDC (who conducts all testing for novel coronavirus) took swabs, then the student was "sent home with a box of masks and told to stay inside and wait for CDC to contact him."

The medical professional was concerned because others could come in contact with the sick student. That student tested positive for coronavirus and is AZ's first confirmed case.

My source was even more concerned with a patient who was transported to the same hospital on Friday with flu-like symptoms, telling me "after a back-and-forth with the CDC they (CDC) didn't even test the patient because he had not been to Wuhan." The student had instead spent winter break in the province NEXT to Wuhan. That sick student was discharged and sent home. Free to come in contact with others. Never tested for CV.

#BREAKING: Coronavirus in Arizona. Confirmed case of new #coronavirus here in Arizona. Person returned from Wuhan, China and is a "member of the ASU community." Currently in isolation at hospital.

**Public Health Agencies Confirm 2019 Novel Coronavirus Case in Arizona**

***The Case is a Maricopa County Resident who Recently Returned from Wuhan, China***

PHOENIX – The Arizona Department of Health Services (ADHS) and the Maricopa County Department of Public Health (MCDPH) announced today that a Maricopa County resident has been diagnosed with the 2019 Novel Coronavirus. The confirmed case is in a person who recently returned from travel to Wuhan, China.

The patient is a member of the Arizona State University community who does not live in university housing. This person is not severely ill and is currently in isolation to keep the illness from spreading. MCDPH and ADHS are currently investigating to identify any close contacts that may have been exposed while the person was infectious. Any individuals who have been identified as having been exposed will be contacted directly. These individuals will be monitored for fever and respiratory symptoms in collaboration with public health and the university.

2019 Novel Coronavirus spreads through the air when an infected person coughs or sneezes. Symptoms are thought to appear within two to 14 days after exposure and consist of fever, cough, runny nose, and difficulty breathing. Those considered at risk for contracting the virus are individuals with travel to Wuhan, China, or individuals in close contact with a person infected with the 2019 Novel Coronavirus. Currently, no commercial testing is available and there is no vaccine. Public health is working with those exposed to get testing by CDC.

"While the immediate risk of the 2019 Novel Coronavirus to the general public is believed to be low at this time, ADHS and our county public health partners will continue to actively monitor for the disease," said Dr. Cara Christ, ADHS director. "There are simple daily precautions that everyone should always take to prevent the spread of diseases."

Public health officials are advising residents that flu and other respiratory diseases are circulating in the community, and are recommending everyone get a flu shot and follow basic prevention guidelines.

The best ways to prevent the spread of respiratory viruses are to:

- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then immediately throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.

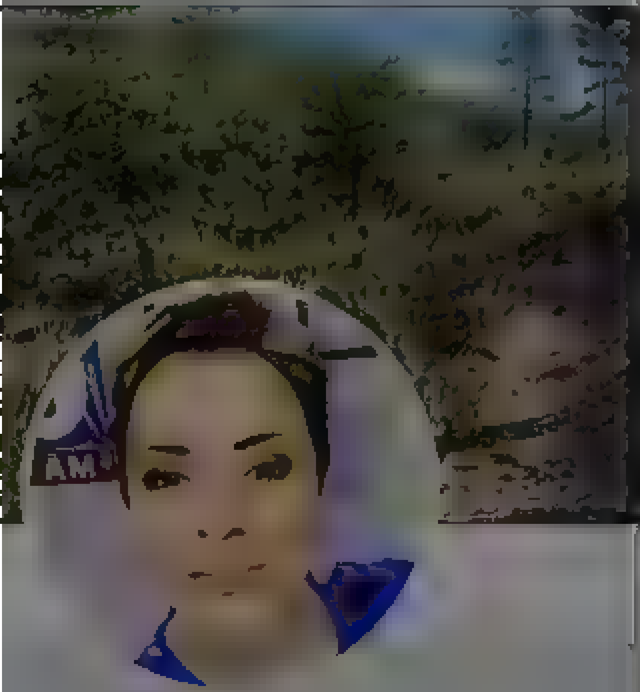

If you have recently traveled to Wuhan, China and have developed fever with cough or shortness of breath within 14 days of your travel, or have had contact with someone who is suspected to have 2019 Novel Coronavirus, stay home and call your healthcare provider right away. If you do not have a health care provider, you may need to be seen at your local hospital emergency room/urgent care center. Please call the emergency room/urgent care center to get instructions before going in.

All testing currently has to be done by the CDC so it takes a day or more

1

**Kari Lake** @KariLakeFox10

Follow

Replying to @andreantrue @instavire

And I'm told the process of collecting samples, securing them and safely express-shipping them to CDC in Atlanta is time consuming. It's difficult to rush thru the protocol that is in place to ensure the sample arrive safely.

11:08 AM · 28 Jan 2020

1

**China For Biden #2020** @instavire · Jan 28

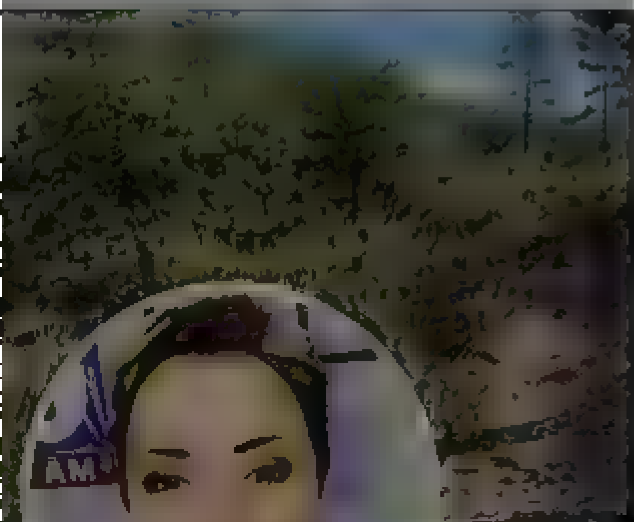

Replying to @KariLakeFox10 @andreantrue

Thank you for replying. But the test can be done before people are symptomatic, correct? As for the protocol, it doesn't sound like there will be much rushing around w/samples, since the person will have to KNOW that they were exposed to someone who tested positive

And so it begins... Madison County Court prepares for Lori Vallow's extradition and appearance (TBD). An administrative order on media coverage within the courtroom is official.

STATE OF IDAHO, IN AND FOR THE COUNTY OF MADISON

STATE OF IDAHO,
Plaintiff,
vs
LORI NORENE VALLOW
Defendant

Case No. CR 33 20-0302

**ADMINISTRATIVE ORDER**

Pursuant to Idaho Court Administrative Rule 45(a), the Administrative District Judge has authority to promulgate rules governing audio-visual recordings and media coverage within a courthouse and outside of a courtroom. The purpose of the Rule is to avoid activity that would be disruptive to court operations, impede the activity of citizens who have business within the courthouse, or might compromise courthouse security.

Accordingly, as to the Madison County Courthouse and any hearing or court proceeding in this matter, no member of the media shall conduct conferences, interviews, or news reporting from the courthouse hallways or other common areas. Any conferences, interviews or reporting from the courthouse grounds shall be done in a manner to not impede foot traffic on the sidewalks in front of the Courthouse or obstruct access to the Courthouse.

Violations of this Order may subject the violator to a charge of contempt. The clerk shall post this Order at conspicuous locations within the courthouse and provide copies to all interested parties.

**IT IS SO ORDERED.**

Dated this 2 day of March, 2020.

Steven W. Boyce
Administrative District Judge

I am scared to lose my parents

My relationship with my mother and step dad is wonderful and there are days we push each other's buttons because of our 🇮🇹 blood.

I never thought I would be this close to them and constantly worry about their health and aging

Zika Virus started in the Zika forest of Uganda. Ebola virus originated in 1976 near the Ebola River in modern day DRCongo. MERS (abbreviation for) Middle Eastern Reapiratory Syndrome. It's very common for viruses to be named after the area in which they originated.

# Keep yourself and those around you safe from the Coronavirus:

## Keeping the workplace safe
Encourage your employees to...

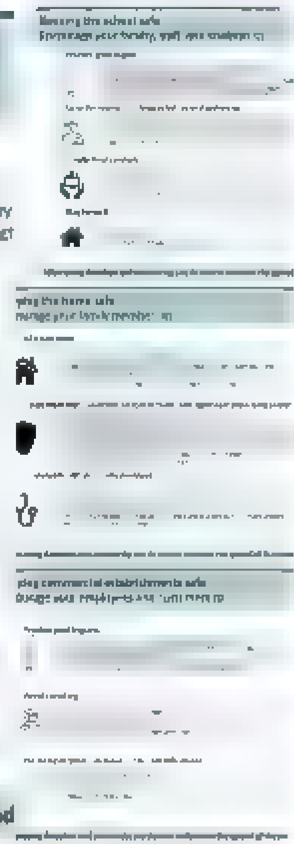

**Practice good hygiene**
- Stop handshaking – use other noncontact methods of greeting
- Clean hands at the door and schedule regular hand washing reminders by
- Create habits and reminders to avoid touching their faces and cover cough
- Disinfect surfaces like doorknobs, tables, desks, and handrails regularly
- Increase ventilation by opening windows or adjusting air conditioning

**Be careful with meetings and travel**
- Use videoconferencing for meetings when possible
- When not possible, hold meetings in open, well-ventilated spaces
- Consider adjusting or postponing large meetings or gatherings
- Assess the risks of business travel

**Handle food carefully**
- Limit food sharing
- Strengthen health screening for cafeteria staff and their close contacts
- Ensure cafeteria staff and their close contacts practice strict hygiene

**Stay home if...**
- They are feeling sick
- They have a sick family member in their home

**What every American and community can do now to decrease the spread**

Coronavirus breaking-out in nursing homes and other eldercare centers is THE MAJOR CONCERN of this epidemic: elderly patients with underlying health issues dying & workers out with illness leaving no one to care for patients. #NightmareScenario

@ScottFordTVGuy , most of the deaths in Wash. have been in the elderly population in nursing home care or long-term care centers. Thankfully this is a priority for authorities.

Replying to @ScottFordTVGuy

eek. No. Not trying to panic people. Truly not. But this is one of my main worries. Almost all of my neighbors are older or elderly and I hate to see this. The good news is most of my elderly friends stick pretty close to home. They don't go out in busy areas.

Here are some simple steps that every American and community can take to help decrease the spread of the #coronavirus at work, home, school, and commercial establishments.
For more, visit coronavirus.gov.

**Keeping the workplace safe**
**Encourage your employees to...**

**Practice good hygiene**

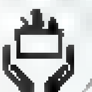

- Stop handshaking – use other noncontact methods of greeting
- Clean hands at the door and schedule regular hand washing reminders by
- Create habits and reminders to avoid touching their faces and cover cough
- Disinfect surfaces like doorknobs, tables, desks, and handrails regularly
- Increase ventilation by opening windows or adjusting air conditioning

**Be careful with meetings and travel**

- Use videoconferencing for meetings when possible
- When not possible, hold meetings in open, well-ventilated spaces
- Consider adjusting or postponing large meetings or gatherings
- Assess the risks of business travel

**Handle food carefully**

- Limit food sharing
- Strengthen health screening for cafeteria staff and their close contacts
- Ensure cafeteria staff and their close contacts practice strict hygiene

**Stay home if...**

- They are feeling sick
- They have a sick family member in their home

KEEPING THE HOME SAFE, ENCOURAGE YOUR FAMILY MEMBERS TO....

**Keeping the home safe**
Encourage your family members to...

**All households**

- Clean hands at the door and at regular intervals
- Create habits and reminders to avoid touching their face and cover coughs and sneezes
- Disinfect surfaces like doorknobs, tables, and handrails regularly
- Increase ventilation by opening windows or adjusting air conditioning

**Households with vulnerable seniors or those with significant underlying conditions**

Significant underlying conditions include heart, lung, kidney disease; diabetes; and conditions that suppress the immune system

- Have the healthy people in the household conduct themselves as if they were a significant risk to the person with underlying conditions. For example, wash hands frequently before interacting with the person, such as by feeding or caring for the person
- If possible, provide a protected space for vulnerable household members
- Ensure all utensils and surfaces are cleaned regularly

**Households with sick family members**

- Give sick members their own room if possible, and keep the door closed
- Have only one family member care for them
- Consider providing additional protections or more intensive care for household members over 65 years old or with underlying conditions

**What every American and community can do now to decrease the spread of the coronavirus**

**Jack Ryan** @JackRya60355532 · 9m

Replying to @KariLakeFox10

C'mon, Kari. The virus can survive on hard surfaces too. Where do we want to draw the line, carry-out and coffee shops? Either do it all the way or not at all.

Meanwhile, let's incite panic and mad rush and massive gatherings at grocery stores. No one gets sick there either

1

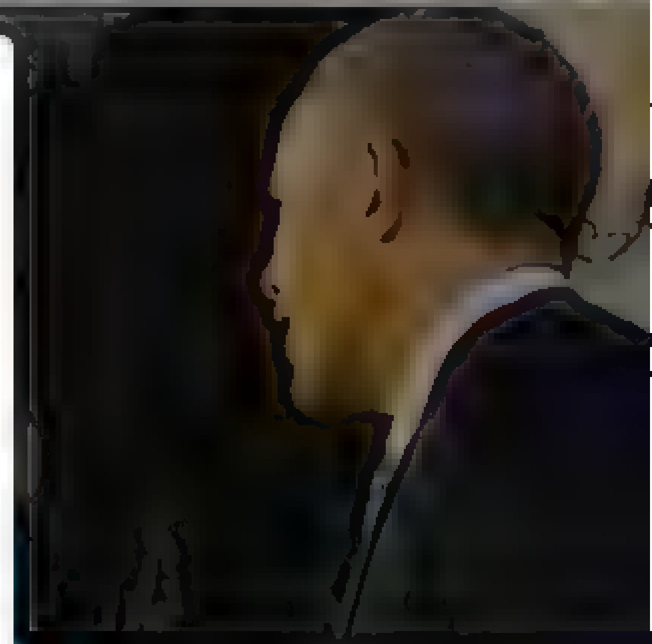

**Randall L Simpson** @RandallLSimpson · 6m

We've been running around with this since at least November and haven't had any significant issues. Now that we are close to the crescendo, we have full panick and bullshit regulations to govern our lives.

We are in unchartered territory. If we strictly heed to the President's guidelines for the next 15 days we may be able to avert a more grave scenario. It will not be easy. We will ALL suffer & sacrifice. If we do our part we may be able to slow this virus. #15DaysToSlowSpread

THE PRESIDENT'S CORONAVIRUS GUIDELINES FOR AMERICA

# 15 DAYS TO SLOW THE SPREAD

Listen and follow the directions of your STATE AND LOCAL AUTHORITIES.

IF YOU FEEL SICK, stay home. Do not go to work. Contact your medical provider.

IF YOUR CHILDREN ARE SICK, keep them at home. Do not send them to school. Contact your medical provider.

IF SOMEONE IN YOUR HOUSEHOLD HAS TESTED POSITIVE for the coronavirus, keep the entire household at home. Do not go to work. Do not go to school. Contact your medical provider.

IF YOU ARE AN OLDER PERSON, stay home and away from other people.

IF YOU ARE A PERSON WITH A SERIOUS UNDERLYING HEALTH CONDITION that can put you at increased risk (for example, a condition that impairs your lung or heart function or weakens your immune system), stay home and away from other people.

I'm not about to pat you on the back, but this is a decent start.

When will test be available for citizens? What are you doing to ensure that our medical staff has the protection it needs? What about ventilators, & other medically necessary equip to treat citizens.

Senators Burr and Loeffler should be investigated by authorities and the Senate Ethics Committee.

If the evidence suggests they engaged in insider trading, they should be charged and stand trial.

We have a family member living in China who's been in lockdown for 7 weeks (!) in an area that's allegedly 'not as affected' by the virus as Wuhan. No signs of when they can come out. They are keeping their sanity. His advice: "When ordering grocery delivery, order some booze."

Great point. AZ's first case of COVID-19 was "a member of the ASU community," but ASU wouldn't say what campus, etc. Now 15 are infected. This is a time when MORE info is better so people can make decisions about their own health & safety. #WeNeedMoreInfo

**Mark Brnovich** @GeneralBrnovich

I'm deeply concerned that 15 ASU students have/had COVID-19. Why weren't campus facilities closed sooner? ASU needs to release more information to the public now. This is a serious public health concern. Thousands of students & staff who could have been exposed are heading home

It is the worst possible news loved ones of an officer can't receive—and right now many are mourning the tragic loss of a 31 year veteran of the Phoenix Police Dept. shot & killed in the line of duty. Two others injured May you rest in eternal peace Commander Greg Carnicle.

Commander Greg Carnicle EOW: 3/29/20

heavy hearts that we announce the passing of a Phoenix Police Department Commander.

Greg Carnicle was shot in the line of duty on Sunday March 29 on the scene of a domestic violence call. Two other officers were also shot during the incident at 40th Drive and Pinnacle Peak. The two officers are expected to recover.

Commander Carnicle was a 31-year veteran of the force, and was just months away from retiring. During his distinguished career, he held

That's great!

But what about people who don't have access to the internet?

Or people that don't have cable or satellite... Only over the air channels?

I'm sorry if any President speaks...

It has to be aired

Whether you or I agree with it or not.

Dana Perino @DanaPerino
I think we need a 2nd task force assembled at direction of POTUS to look ahead to reopening of the economy. Made up of a nonpartisan/bipartisan mix of experts across industry sectors, so that we have their recommendations & plan - let 1st taskforce focus on crisis at the moment.

@DanaPerino That makes a lot of sense. All we have to do now is find nonpartisan/bipartisan leaders who will focus on the country before their political beliefs and motives! Wouldn't that be very American to do!! Please do it!

That the USA is on the backside of the COVID curve is a theory that should be put through its paces

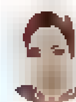

1. It was a bad flu season in Nov/Dec/Jan.

2. AZ started COVID testing in March

3. The day-over-day numbers in AZ, are flat

4. Do folks sick back then have the antibody?

2 2

**Kari Lake** @KariLakeFox10

I had this man & his family in my thoughts yesterday. Wish all who loved & respected Cmdr. Carnicle could've attended his funeral. So many were there in thought. Difficult day for law enforcement to see one of their own laid to rest. May they all be protected by the hand of God

**Phoenix Police Department** @PhoenixPolice
Funeral, moment of silence to remember Commander Greg Carnicle. Video recap of today's tributes: bit.ly/34hnmYO #RIPGregCarnicle

Break into somebody's home at your own risk!
You never know what's waiting for you on the other side of the door.
In this case it was a gun. Glad this elderly home owner was able to protect himself.

You cannot make it up.
The "fact checker" Facebook is using to censor a documentary discussing possibility that corinavirus came from Wuhan lab... is scientist who worked at Wuhan lab with Chinese communists.
Honestly, folks.

**Danielle E. Anderson, Assistant Professor, Duke-NUS Medical School:**
To provide context for my opinion, I will disclose that I am a scientist trained to work in high containment and have collaborative projects with the Wuhan Institute of Virology (WIV). I have worked in this exact laboratory at various times for the past 2 years. I can personally attest to the strict control and containment measures implemented while working there. The staff at WIV are incredibly competent, hardworking, and are excellent scientists with superb track records.

History Throwback:
On this night 245 years ago
#TheRideOfPaulRevere
My kids had to memorize the famous Henry Wadsworth Longfellow poem for school.
It starts:
--Listen, my children, and you shall hear
Of the midnight ride of Paul Revere...
#14Stanzas
Do you know the poem?

His plan is lame. It halts only 10% of immigration. He's allowing all guest workers to continue flooding in and taking American jobs with visas like #H1B & #OPT. Until guest worker programs are stopped, 26Mil jobless Americans are out of luck.

**Nohl Rosen** @catprotector Apr 22
Replying to @KariLakeFox10 @dougducey
He needs to re-open the state now for business. Another demonstration is planned for April 27th at 12pm at the Capitol. His executive orders have closed businesses, put people out of work and violated our constitutional rights.

Trend line for Maricopa is not flat.

3

Kari Lake
@KariLakeFox10

Follow

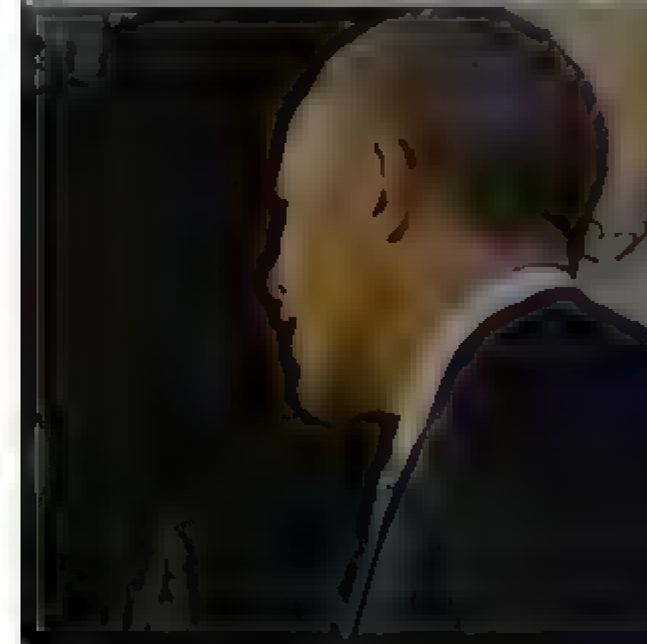

Replying to @beigestucco @bu frog35

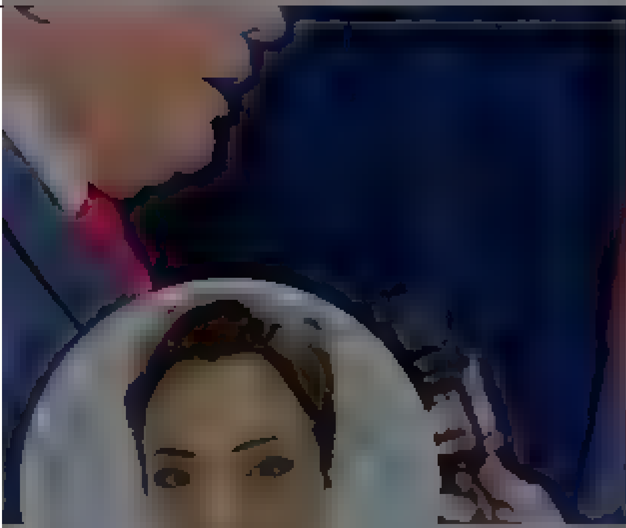

Flat to me means: the number of new cases fluctuates within a range since March.
If you are within that range, it's a normal day
The average is 100–so 50 up or down of that is considered "flat".

"Spread" is not a number.

"Spread" is a number/area.

5 cases in a building is different than 5 cases in a town.

Similarly, "flatten the curve" is misdirection. The total number of cases will always increase.....rate of increase is what gets flattened.

Media won't show that.

**Impeached Rube** 306-232 @azgrogg
Replying to @bullfrog35 @ThatParentP4P

I think we are past our peak. We are not NY. NY is 8 mill pop in 300 Sq Mi. Maricopa Co is 4 mill in 14k Sq Mi. The EV is 2.5 Mil in 800 Sq Mi. We do not have the problems NY has. We need to open up and get our lives back to normal

   2

**JonWanderer** @JonWanderer · Apr 29

Replying to @KariLakeFox10

He cannot prove this is not a violation of our constitutional rights. The data is far from supporting him. I am ashamed of the press and lawyers being silent. And to those wanting to open, open. His fines will not be supported by a rational judge looking at data and our rights.

Restaurants in Arizona can't open until Monday, May 11th. The day AFTER Mother's Day (typically a high-revenue day for restaurants.)
If restaurants were open for Mom's Day this year would you take your mom out?
Or are you hesitant to eat out for awhile due to Covid19?

1,061 patient, peer-reviewed study is complete: When administered early, cheap generic drug-combo keeps Covid19 from progressing into critical illness.
"virological cure" for 91.7%
0.75% died (8 patients, all 74–95 years old)
Complete study --
> sciencedirect.com/science/articl ...

A total of 1061 patients were included in this analysis (46.4% male, mean age 43.6 years – range 14–95 years). Good clinical outcome and virological cure were obtained in 973 patients within 10 days (91.7%). Prolonged viral carriage was observed in 47 patients (4.4%) and was associated to a higher viral load at diagnosis ($p < .001$) but viral culture was negative at day 10. All but one, were PCR-cleared at day 15. A poor clinical outcome (PClinO) was observed for 46 patients (4.3%) and 8 died (0.75%) (74–95 years old). All deaths resulted from respiratory failure and not from cardiac toxicity. Five patients are still hospitalized (98.7% of patients cured so far). PClinO was associated with older age (OR 1.11), severity at admission (OR 10.05) and low HCQ serum concentration. PClinO was independently associated with the use of selective beta-blocking agents and angiotensin II receptor blockers ($p < .05$). A total of 2.3% of patients reported mild adverse events (gastrointestinal or skin symptoms, headache, insomnia and transient blurred vision).

## Conclusion

Administration of the HCQ+AZ combination before COVID-19 complications occur is safe and associated with very low fatality rate in patients.

Take a look at the documents declassified and just released by Acting Director of National Intelligence Richard Grenell, including cover letter sent to GOP Sens. Chuck Grassley and Ron Johnson, who made the documents public.

MAY 13 2020

The Honorable Charles E. Grassley
Chairman
Committee on Finance
United States Senate
Washington, DC

The Honorable Ron Johnson
Chairman
Committee on Homeland Security
United States Senate
Washington, DC

Senators Grassley and Johnson,

On 8 May 2020 I declassified the enclosed document, which I am providing to you for your situational awareness.

Sincerely,

Richard A. Grenell
Acting Director

Tesla is filing a lawsuit against Alameda County immediately. The unelected & ignorant "Interim Health Officer" of Alameda is acting contrary to the Governor, the President, our Constitutional freedoms & just plain common sense

**Elon Musk**
@elonmusk

Ikuti

Membalas @elonmusk @GerberKawasaki @thirdrowtesla

Frankly, this is the final straw. Tesla will now move its HQ and future programs to Texas/Nevada immediately. If we even retain Fremont manufacturing activity at all, it will be dependen on how Tesla is treated in the future. Tesla is the last carmaker left in CA.

Go back to the normal we all remember, work, pay some bills and have some fun

STOP calling it "Quarantine".
Quarantine is for the Sick. This is House Arrest.

STOP calling it "Social Distancing".
There is Nothing Social about Forced Isolation.

Stop saying "Safer at Home".
Because for Millions of Americans
in Abusive Situations and Mental Health Struggles,
their Home is Anything But Safe.

STOP saying this is for the "Greater Good".
No Good can come from the Government
Picking and Choosing Who is Essential and Who Isn't.

Every Single Person and Every Single Business is Essenti

## 5th Gen AZ Family

COVID was the October surprise

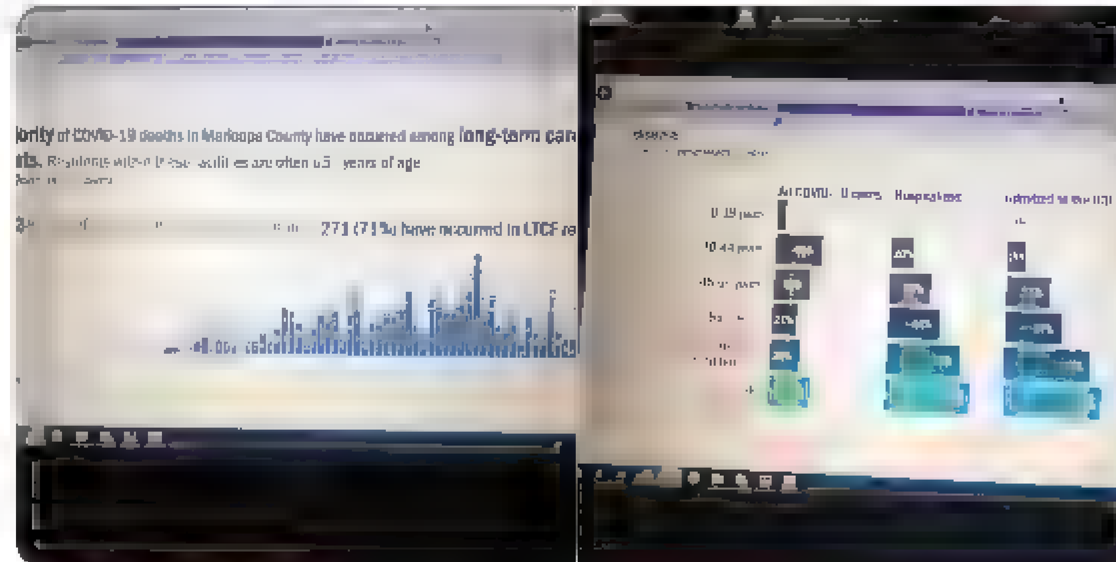

**5th Gen AZ Family**
@bullfrog35

Follow

A sad but necessary addition to the Maricopa County Public Health report.

They have broken out the COVID deaths in long-term care facilities: over 70%. 😩

But even THAT doesn't tell the whole story: 94% of folks who died from COVID in Maricopa County are seniors or high-risk.

the thought is kids who have pre-existing conditions like bad asthma etc and anyone who's got someone at home who's very high risk might be able to stay home and do online options. But there will not be an option as far as I understand to just choose to stay home if you want to.

DNI Ratcliffe issues statement on declassification of transcripts

"As I stated throughout the confirmation process, transparency is vital to allowing the American people to have confidence in the Intelligence Community.

"As the Director of National Intelligence, it is my obligation to review declassification requests with the overarching priority of protecting sources and methods, while also providing transparency whenever possible. Accordingly, today the Office of the Director of National Intelligence declassified transcripts concerning Lt. Gen. Michael Flynn."

Many Questions regarding AZ's 8pm curfew. There are exceptions allowing you to be out.
▶️You can NOT be roaming public streets or public places.
▶️You CAN be out after 8pm IF you are going to and from work
▶️You CAN be out if you are "patronizing or operating a business."

The time has come to ensure all law enforcement agencies have robust and regularly administered de-escalation training. Working together we can set a new standard for law enforcement training and honor the sincere concerns of the people we serve and advance the cause of justice.

June 3, 2020

| | | |
|---|---|---|
| The Honorable Doug Ducey | The Honorable Karen Fann | The Honorable Rusty Bowers |
| 1700 W. Washington St. | 1700 W. Washington St. | 1700 W. Washington St. |
| Phoenix, AZ 85007 | Phoenix, AZ 85007 | Phoenix, AZ 85007 |

Dear Governor Ducey, President Fann, and Speaker Bowers

We have all watched the video of George Floyd with shock and outrage. As Arizona's top law enforcement official, I hope Mr. Floyd's death will not be in vain but will serve as a catalyst for positive reforms.

Over the past several years the Attorney General's Office has provided de-escalation and cultural diversity training for our sworn agents. Although the Arizona Peace Officer Standards and Training Board offers training on these topics, they are not mandated. The time has come to require all law enforcement agencies to have robust de-escalation training that is regularly administered. Let's work together to set a new standard for Arizona's law enforcement training.

In addition, it is imperative that we maintain public confidence in the investigations following officer-involved shootings and excessive use of force. Arizona should ensure a third party oversees these matters. One option would be to designate the Attorney General to oversee these investigations as has been done in California and New York, and I would support that for Arizona. There are also other viable options to consider.

Finally, Arizona should pursue additional outreach programs by law enforcement to our communities, especially our younger generation. Whether it's a "Know Your Rights" campaign, or classroom presentations, it is clear that more needs to be done. Our office has some compelling ideas on where Arizona should go from here, and we look forward to working with you to bring these programs to fruition.

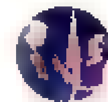

Goodness can come from even the worst situations. Let's honor the sincere concerns of the people we serve and advance the cause of justice.

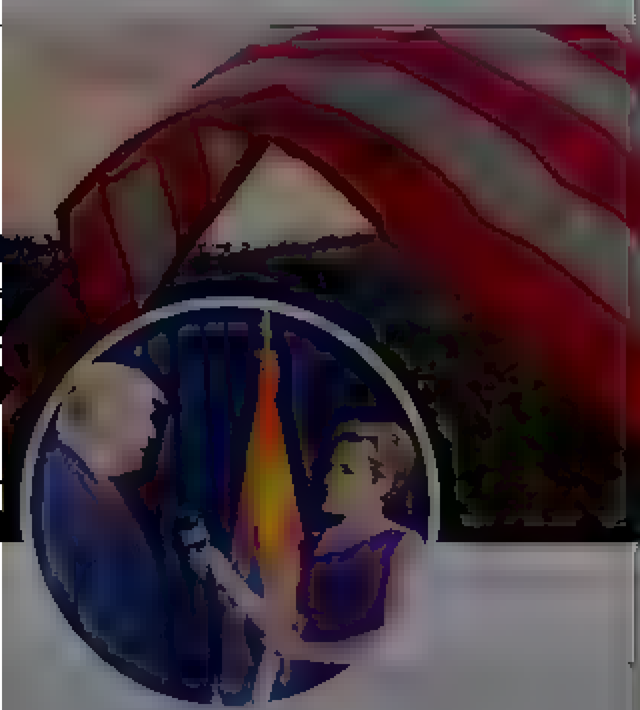

Respectfully,

Many Questions regarding AZ's 8pm curfew. There are exceptions allowing you to be out.
▶️You can NOT be roaming public streets or public places.
▶️You CAN be out after 8pm IF you are going to and from work
▶️You CAN be out if you are "patronizing or operating a business."

Private security for city officials costing $100s of thousands while those same city officials talk about disbanding police departments??!
We need to figure this out before decisions are made & it's too late. Everybody needs to be safe. Change policies— don't defund/disband PDs.

In opening, Arizona decision-makers considered the negative consequences from shutdown over Covid19–such as child safety, education impediment, mental health, financial and emotional stress, physical health domestic violence to name a few.

SMART, RESPONSIBLE USE OF MITIGATION STRATEGIES

Consequences of Prolonged Mitigation Strategies

- Child Safety
- Education Imped
- Mental Health, including financial and emotional stressors
- Loneliness and isolation
- Physical Health
- medical screenings
- hood immunizations
- Domestic Violence

Former NYT reporter author of Tell Your Children (Telegram account AlexBerensonCV) Not in the club Shake it like a Polaroid picture

**Alex Berenson** @AlexBerenson

1/ This panic is likely to prove even more embarrassing than previous panics. Here's why: the media is both confused and conflating several different data points in an effort to stir hysteria. (Stop me if you've heard this before.)

What do I mean?

10:43 · 11 juin 2020

**1040** Retweets **2182** J'aime

81 · 1,0 k · 2,2 k

**Alex Berenson** @AlexBerenson · 5 h

2/ So: you've heard positive tests are up in several states. True. The media refers to these as "cases," as if positive tests have clinical significance by themselves. They do not. The vast majority of people with positive tests do not become ill enough to need hospitalization

21 · 236 · 995

**Alex Berenson** @AlexBerenson · 5 h

3/ Much less intensive care or ventilator support. For people under 50, this is true in the extreme. But the daily age distribution of positive tests is rarely if ever supported...

5 · 137 · 687

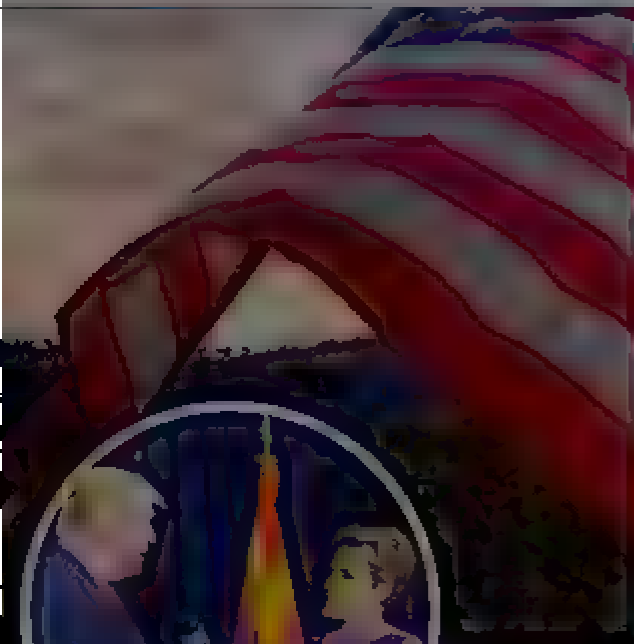

**Alex Berenson** @AlexBerenson · 5 h

4/ Second: you've heard overall hospitalizations are up in some states. This is also true. THIS IS A FEATURE, NOT A BUG. Overall hospitalizations are rising because people are returning to hospitals for elective (and in some cases very necessary) surgeries that were postponed.

**Proud Conservative** ⭐⭐⭐ @GannonShaya · 5m

Replying to @KariLakeFox10 @dougducey

I won't wear a mask because the data proves it will not stop the spread.

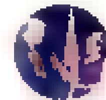

NOT protect you from breathing in any gases or airborne particles from scents, I still breathed vapors all day while using them in my former occupation. And condensation is still an issue is you wear these masks all day. You WILL be breathing in moisture as the filters get wet with your own breath and you continue to inhale bacteria from exhaling your own body exhaust from your lungs. Then you face creating an environment

I spoke w/ medical professional involved w/ Arizona's first novel #coronavirus case & another patient transported to the same hospital w/ cv-symptoms. Source says both are ASU students w/ recent travel to China. But only one was tested for the virus. Summary of our convo below. ⬇️

I spoke with a medical professional with direct knowledge of the first confirmed novel coronavirus case at ASU. This medical professional reached out to me on the condition of anonymity because they are not convinced enough is being done to prevent the spread of this highly-contagious virus.

My source tells me a male student came in to an Valleywise Health (formerly known as Maricopa Medical Center) on Saturday with flu-like symptoms. The CDC (who conducts all testing for novel coronavirus) took swabs, then the student was "sent home with a box of masks and told to stay inside and wait for CDC to contact him."

The medical professional was concerned because others could come in contact with the sick student. That student tested positive for coronavirus and is AZ's first confirmed case.

My source was even more concerned with a patient who was transported to the same hospital on Friday with flu-like symptoms, telling me "after a back-and-forth with the CDC they (CDC) didn't even test the patient because he had not been to Wuhan." The student had instead spent winter break in the province NEXT to Wuhan. That sick student was discharged and sent home. Free to come in contact with others. Never tested for CV.

**Elon Musk** @elonmusk

Follow

Replying to @flcnhvy @RationalEtienne and 2 others

The news is sometimes created, but always curated. The latter is most pernicious. On any given day, there are thousands of potential stories. By picking which stories are written about & how prominently they're placed, a handful of publishers control much of the public narrative.

The first day with 100+ deaths. Keep in mind deaths lag cases by 3 weeks. 3 weeks ago we had 1k cases per day. We have 4k cases per day.

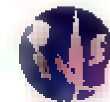

The death rate will go over 300 a day in the next 3 weeks. More will die in July than ALL of the pandemic.

Heartwrenching. The pilot in the helicopter that crashed near the Polles Fire burning just west of Payson has died. He was from a family of firefighters, his dad was a retired FF from a valley fire department. Here is the latest from Stacy Figueroa from Pine-Strawberry Fire Dept.

**Stacy Figueroa Psfd**
1 hr

Confirmation from Chief G. Morris. The helicopter crash was just north of the fire, outside the fire lines. They did have to bring in other air attack to put it out. There was only one person on the helicopter. Sadly he didn't make it. His family has already arrived in Payson. S.O. & DPS is helping in the measures of retrieving him from the scene. He was not local. He does come from a family of firefighters, his father is retired from a valley dept. Please hold him, his family, and all involved in your prayers. These times are not only tough to handle but extremely tough when everyone out there still has a fire to keep fighting. Be patient on further info. and pray this is the only incident within the incident.
Thank you all for your care and support. Stay safe out there.

💔RIP young man, we thank you for your hard efforts in protecting us all. You've made the ultimate sacrifice. We will never forget. We'll take it from here. 💔

BREAKING: Federal Death Penalty will resume.
In a 2 a.m. ruling and 5-4 vote the U.S. Supreme Court clears the way for executions of federal prisoners. First federal execution in 20 years now expected to take place on Tuesday after it was delayed on appeal.

**The Associated Press** @AP
The Supreme Court has cleared the way for the execution of a federal prison inmate, removing a hold placed hours earlier by a trial judge. The justices voted to allow the execution of Daniel Lewis Lee to proceed at a federal prison in Indiana. apne.ws/v7 Z.DM

BREAKING: Justice Ginsburg has been undergoing chemotherapy for a recurrence of cancer. "I have often said I would remain a member of the Court as long as I can do the job full steam. I remain fully able to do that."

Supreme Court of the United States
Washington, D. C. 20543

OFFICE OF
PUBLIC INFORMATION

For Immediate Release
July 17, 2020

For Further Information Contact
Kathleen Arberg (202) 479-3211

Statement from Justice Ruth Bader Ginsburg

On May 19, I began a course of chemotherapy (gemcitabine) to treat a recurrence of cancer. A periodic scan in February followed by a biopsy revealed lesions on my liver. My recent hospitalizations to remove gall stones and treat an infection were unrelated to this recurrence.

Immunotherapy first essayed proved unsuccessful. The chemotherapy course, however, is yielding positive results. Satisfied that my treatment course is now clear, I am providing this information.

My most recent scan on July 7 indicated significant reduction of the liver lesions and no new disease. I am tolerating chemotherapy well and am encouraged by the success of my current treatment. I will continue bi-weekly chemotherapy to keep my cancer at bay, and am able to maintain an active daily routine. Throughout, I have kept up with opinion writing and all other Court work.

I have often said I would remain a member of the Court as long as I can do the job full steam. I remain fully able to do that.

On a Monday 22 years ago we said "I do."
Why Monday?
Because we both worked weekends & had Mondays off.
😂
We got married off the side of a red dirt road in Sedona w/ a few loved ones present.
I don't always make good decisions, but when I do they are exceptional decisions.💗

**Josh Caplan** @joshdcaplan · 57m

Second source via National Post: nationalpost.com/news/world/ghi

In the latest of a number of challenges, her legal team has now asked Judge Alison Nathan to see that Maxwell is placed in the general population area of Brooklyn's Metropolitan Detention Centre. She has been taken off suicide watch, her lawyers say, but she is still forced to undergo round-the-clock surveillance as well as a number of searches per day.

My daughter is so sweet.
For my 51st birthday she got me balloons that say "25"! Unfortunately they keep flipping around to "52!" Therefore ADDING a year to my age!

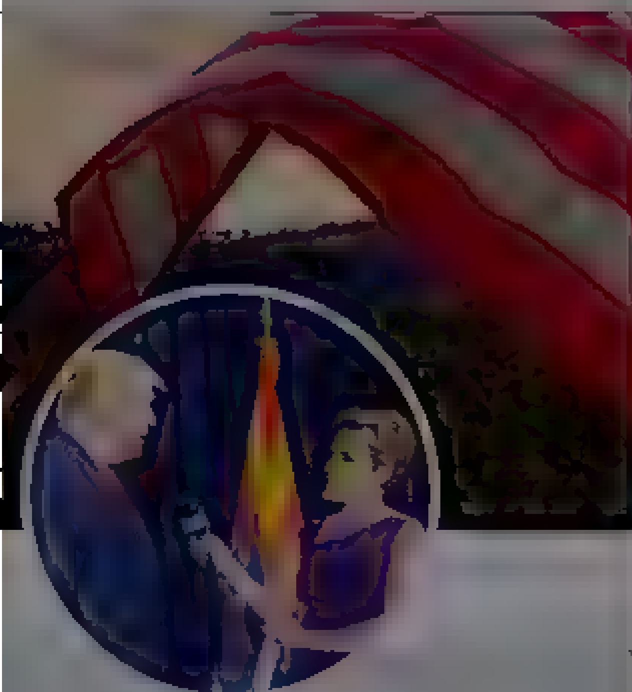

Well, I guess TECHNICALLY I AM starting my 52nd year as of right now.

Awww I always say on Facebook in posts that I'm 29. One older guy (who must be nearsighted) actually believed me lol. I would have never guessed you were older than me, if you haven't yet you should consider telling your viewers how you do it.

Flynn update -

Judge Sullivan has effectively pushed back the resolution of the Flynn case until after the election.

Ordered a status report (with briefing schedule) by September 21. This will include a proposed oral argument date.

U.S. District Court
District of Columbia (Washington, DC)
CRIMINAL DOCKET FOR CASE #: 1:17-cr-00232-EGS-1

Case title: USA v. FLYNN    Date Filed: 11/30/2017

| Date Filed | # | Docket Text |
|---|---|---|
| 09/01/2020 | | MINUTE ORDER as to MICHAEL T. FLYNN. In light of the Opinion and Order issued by the Court of Appeals on August 31, 2020 and Circuit Rule 41(a)(3), which states that an order denying mandamus relief "will become effective automatically 21 days after issuance in the absence of an order or other special direction... to the contrary," the parties are directed to file a joint status report with a recommendation for further proceedings by no later than September 21, 2020. The parties' joint status report shall propose a briefing schedule regarding the deadlines for: (1) the government and Mr. Flynn to file any sur-reply briefs, and (2) the government, Mr. Flynn, and the Court-appointed amicus curiae to file a consolidated response to any amicus brief of non-Court-appointed amicus curiae. It is FURTHER ORDERED that the parties shall propose three dates and times to hold oral argument. If the parties are unable to agree on a joint recommendation, the joint status report shall include each party's individual recommendations. Signed by Judge Emmet G. Sullivan on 9/1/2020. **U.S. Marshals** @USMarshalsHQ Follow

At approximately 7:30 p.m. PST on September 3, members of the U.S. Marshals Service Pacific Northwest Violent Offender Task Force were involved in a line-of-duty shooting in Olympia, Washington.

7:27 AM 4 Sep 2020

31 Retweets 35 Likes

7 31 35

**U.S. Marshals** @USMarshalsHQ 2m

The task force was attempting to arrest Michael Forest Reinoehl, wanted by Multnomah County Circuit Court (Oregon) on a charge of murder. Reinoehl was allegedly involved in an August 29 shooting incident in Portland, Oregon, that resulted in a death.

2 5 16

**U.S. Marshals** @USMarshalsHQ 2m

The Portland Police Bureau had issued a warrant for his arrest earlier in the day and asked the US Marshals to locate and apprehend the suspect. The fugitive task force located Reinoehl in Olympia and attempted to peacefully arrest him.

3 3 12

**U.S. Marshals** @USMarshalsHQ 2m

Initial reports indicate the suspect produced a firearm, threatening the lives of law enforcement officers. Task force members responded to the threat and struck the suspect who was pronounced dead at the scene.
No law enforcement officers were injured during the incident.

1 2 19

The #FBI is seeking information about this image, which may help lead to the rescue of child victims. Do you notice something familiar? Submit tips at tips.fbi.gov. There is no clue or piece of information too small. #SeekingInfoSaturday ow.ly/JzYN50Biwjv

Law enforcement officials are seeking information regarding the below images, which may help lead to the identification and rescue of child victims. The FBI utilizes image analysis to identify clues to where a child may be held. By recognizing these clues and/or sharing additional observations from the backgrounds of these images, you may help first to identify and rescue the child victim(s) and second to capture the perpetrator. There is no clue or piece of information too small.

Should the candidates get a break? Or is it reasonable to go 90 minutes without a break during tonight's debate? What are your thoughts?

**Rudy W. Giuliani** @RudyGiuliani
Biden is begging for long breaks during just a 90-minute debate!

It's either two 15 minute breaks or a half-hour break in the middle. So far the Election Commission has stood firm and said they are NOT going to change the practice…

I use "c" for "see" only if I'm out of Twitter characters, but Sen. @ChuckGrassley (from my home state of Iowa) had plenty of characters left?? It's one of the more interesting senate accounts to follow—includes tweets about roadkill, farming, rural life, Iowa stuff.

**ChuckGrassley** @ChuckGrassley
Turned to history channel to c if there was any history,. There was not any history Instead "The Pickers" sShe insisted we watch. Big mistake on my part

After testing negative consistently, including every day since Thursday, I tested positive for COVID-19 on Monday morning while experiencing no symptoms. No reporters, producers, or members of the press are listed as close contacts by the White House Medical Unit. Moreover, I definitively had no knowledge of Hope Hicks' diagnosis prior to holding a White House press briefing on Thursday. As an essential worker, I have worked diligently to provide needed information to the American People at this time. With my recent positive test, I will begin the quarantine process and will continue working on behalf of the American People remotely.

I spoke w/ medical professional involved w/ Arizona's first novel #coronavirus case & another patient transported to the same hospital w/ cv-symptoms. Source says both are ASU students w/ recent travel to China. But only one was tested for the virus. Summary of our convo below. ⬇️

I spoke with a medical professional with direct knowledge of the first confirmed novel coronavirus case at ASU. This medical professional reached out to me on the condition of anonymity because they are not convinced enough is being done to prevent the spread of this highly-contagious virus.

My source tells me a male student came in to an Valleywise Health (formerly known as Maricopa Medical Center) on Saturday with flu-like symptoms. The CDC (who conducts all testing for novel coronavirus) took swabs, then the student was "sent home with a box of masks and told to stay inside and wait for CDC to contact him."

The medical professional was concerned because others could come in contact with the sick student. That student tested positive for coronavirus and is AZ's first confirmed case.

My source was even more concerned with a patient who was transported to the same hospital on Friday with flu-like symptoms, telling me "after a back-and-forth with the CDC they (CDC) didn't even test the patient because he had not been to Wuhan." The student had instead spent winter break in the province NEXT to Wuhan. That sick student was discharged and sent home. Free to come in contact with others. Never tested for CV.

I spoke w/ medical professional involved w/ Arizona's first novel #coronavirus case & another patient transported to the same hospital w/ cv-symptoms. Source says both are ASU students w/ recent travel to China. But only one was tested for the virus. Summary of our convo below. ⬇️

I spoke with a medical professional with direct knowledge of the first confirmed novel coronavirus case at ASU. This medical professional reached out to me on the condition of anonymity because they are not convinced enough is being done to prevent the spread of this highly-contagious virus.

My source tells me a male student came in to an Valleywise Health (formerly known as Maricopa Medical Center) on Saturday with flu-like symptoms. The CDC (who conducts all testing for novel coronavirus) took swabs, then the student was "sent home with a box of masks and told to stay inside and wait for CDC to contact him."

The medical professional was concerned because others could come in contact with the sick student. That student tested positive for coronavirus and is AZ's first confirmed case.

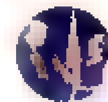

My source was even more concerned with a patient who was transported to the same hospital on Friday with flu-like symptoms, telling me "after a back-and-forth with the CDC they (CDC) didn't even test the patient because he had not been to Wuhan." The student had instead spent winter break in the province NEXT to Wuhan. That sick student was discharged and sent home. Free to come in contact with others. Never tested for CV.

Brandon's Smile Toy Drive—Benefiting children in foster care. Great cause in memory of a beautiful soul, Brandon Rowin. If you can help, here is some information below.

October 1, 2020 – November 30, 2020

In Memory of Brandon Nehemiah Rowin

**Benefiting Arizona Helping Hands**

In honor of Brandon Rowin's memory, his sister Hannah is organizing a toy collection drive starting October 1st through November 30th. All donations will benefit Arizona Helping Hands, who is hosting their 22nd Annual Holiday Toy Drive for children in foster care so they are not forgotten during the holiday season. Arizona Helping Hand's mission is to provide essential needs to children in foster care through their programs promoting safety, permanency and health. Below is a list of the toys needed as well as the general guidelines. Donations can be dropped off at Hannah's home (please email for the address) or she will come to you and pick them up. If you would also want to donate money for Hannah to buy a toy for you please email her as well! Thank you for your support! Email: Hannahjoy445@gmail.com

The organization asks that all toys be brand new and in the packaging.
**Please no play guns, nerf guns, archery sets or anything that depicts violence.**

I spoke w/ medical professional involved w/ Arizona's first novel #coronavirus case & another patient transported to the same hospital w/ cv-symptoms. Source says both are ASU students w/ recent travel to China. But only one was tested for the virus. Summary of our convo below. ⬇️

I spoke with a medical professional with direct knowledge of the first confirmed novel coronavirus case at ASU. This medical professional reached out to me on the condition of anonymity because they are not convinced enough is being done to prevent the spread of this highly-contagious virus.

My source tells me a male student came in to an Valleywise Health (formerly known as Maricopa Medical Center) on Saturday with flu-like symptoms. The CDC (who conducts all testing for novel coronavirus) took swabs, then the student was "sent home with a box of masks and told to stay inside and wait for CDC to contact him."

The medical professional was concerned because others could come in contact with the sick student. That student tested positive for coronavirus and is AZ's first confirmed case.

My source was even more concerned with a patient who was transported to the same hospital on Friday with flu-like symptoms, telling me "after a back-and-forth with the CDC they (CDC) didn't even test the patient because he had not been to Wuhan." The student had instead spent winter break in the province NEXT to Wuhan. That sick student was discharged and sent home. Free to come in contact with others. Never tested for CV.

I'd rather be wrong for suggesting we should count more votes before calling AZ--than calling the state and getting it wrong. If there are 800K-1m votes to be counted, we need to count them. Even if the majority come from Maricopa County--did they come from Mesa? Phx? Big county.

POTUS just spoke from WH saying:
"Pollsters got it knowingly wrong."
He said they did so to "supress the vote."
He blames "big media, big money and big tech."
He said there was "no Blue Wave," but instead a "big Red Wave."
Pres. @realDonaldTrump took no questions from press.

BREAKING AZ ELECTION NEWS— Newest numbers coming out of Pima county (typically a strong D-leaning county) show ballots are favoring Trump.

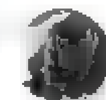

**Data Orbital** @Data_Orbital
BALLOT RESULT THREAD: Pima County - 5,614 ballots 50.8/47.3 Trump to Biden
Overall, this is a strong County for Biden. Good sign for Trump.

NEW: election fraud lawsuit was filed in Detroit with affidavits alleging backdating ballots,  no matching signatures. It includes an affidavit from a city employee claiming she was asked to backdate ballots:

6:02 AM - 9 Nov 2020

**Matt Finn**  @MattFinnFNC · 3h

5. I worked at the election headquarters for most of September and I started working at a satellite location for most of October 2020.

6. I processed absentee ballot packages to be sent to voters while I worked at the election headquarters in September 2020 along with 70-80 other poll workers. I was instructed by my supervisor to adjust the mailing date of these absentee ballot packages to be dated earlier than they were actually sent. The supervisor was making announcements for all workers to engage in this practice.

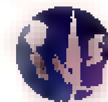

7. At the satellite location, I processed voter registrations and issued absentee ballots for people to vote in person at the location.

8. I directly observed, on a daily basis, City of Detroit election workers and employees coaching and trying to coach voters to vote for Joe Biden and the Democrat party. I witnessed these workers and employees encouraging voters to do a straight Democrat ballot. I witnessed these election workers and employees going over to the voting booths with voters in order to watch them vote and coach them for whom to vote.

9. During the last two weeks while working at this satellite location, I was specifically instructed by my supervisor not to ask for a driver's license or any photo I.D. when a person was trying to vote.

10. I observed a large number of people who came to the satellite location to vote in-person, but they had already applied for an absentee ballot. These people were allowed to vote in-person and were not required to return the mailed absentee ballot or sign an affidavit that the voter lost the mailed absentee ballot.

What is the misinformation in her tweet? You have better numbers than she does? Please share

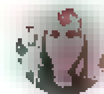

1 · 2

**carolyn covey** @YayCC · 4 Min
Maricopa county posted 6,397 ballots to the presidential race.
Breakdown
Biden: 3,056(47.7%)
Trump: 3,196(49.9%)

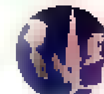

Biden now leads Trump 14,746 in Arizona. Her breakout was really wrong

1

**carolyn covey** @YayCC · 3 Min

I d rather be wrong for suggesting we should count more votes before calling AZ--than calling the state and getting it wrong. If there are 800K-1m votes to be counted, we need to count them. Even if the majority come from Maricopa County--did they come from Mesa? Phx? Big county.

**Bill Melugin** @BillFOXLA
Man...my heart breaks for these small business owners every time I interview them. 8 months of being closed down. It's no longer frustration...it's pure panic. Many of them are on the edge of losing everything they've worked for their entire life through no fault of their own.

Trump got 54.6% of the last batch, but he needed 68.3. He made gains, but they're too small. Now he needs 76.3% of the remaining 22,456. He won't catch Joe at the rate he's going.

# FOR IMMEDIATE RELEASE: Legislative Leaders call for audit of Maricopa County election software and equipment

#AZSenate #AZleg #Election @AZHouseGOP

## Press Release

**Arizona State Legislature**
**Senate President Karen Fann (R-1)**
**House Speaker Russell Bowers (R-25)**
1700 West Washington • Phoenix, Arizona • 85007-2844

**Friday, December 4, 2020**
**FOR IMMEDIATE RELEASE**

### Legislative Leaders call for audit of Maricopa County election software and equipment

Phoenix, State Capitol — Senate President Karen Fann and Speaker of the House Rusty Bowers today called for an independent audit of the Dominion software and equipment used by Maricopa County in the 2020 General Election. The two leaders, along with incoming Senate Government Chair Michelle Ugenti-Rita and House Majority Leader Warren Petersen, had numerous phone calls with members of the Maricopa County Board of Supervisors.

"As a longtime advocate for improving and modernizing our election system, I am pleased to learn that the Maricopa County Board of Supervisors is supportive of conducting an independent audit of their voting software and equipment," said Sen. Ugenti-Rita. "It is important we maintain all of the voting public's confidence in our elections and this is a positive first step in the right direction."

"A significant number of voters believe that fraud occurred and with the number of irregularities it is easy to understand why," said House Majority Leader Petersen. "Especially concerning are the allegations made surrounding the vendor Dominion. It is imperative that the County immediately do a forensic audit on the Dominion software and equipment to make sure the results were accurate."

Legislators also emphasized to the supervisors how important it is to move expeditiously on this matter.

NEW #SCOTUS denies TX case for lacking of standing @CBSNews @JanCBS READ:

(ORDER LIST 592 U.S.)

FRIDAY, DECEMBER 11, 2020

ORDER IN PENDING CASE

155, ORIG. TEXAS V. PENNSYLVANIA, ET AL.

The State of Texas's motion for leave to file a bill of complaint is denied for lack of standing under Article III of the Constitution. Texas has not demonstrated a judicially cognizable interest in the manner in which another State conducts its elections. All other pending motions are dismissed as moot.

Statement of Justice Alito, with whom Justice Thomas joins: In my view, we do not have discretion to deny the filing of a bill of complaint in a case that falls within our original jurisdiction. See Arizona v. California, 589 U. S. ___ (Feb. 24, 2020) (Thomas, J., dissenting). I would therefore grant the motion to file the bill of complaint but would not grant other relief, and I express no view on any other issue.

CERTIORARI GRANTED

20-222 GOLDMAN SACHS GROUP, ET AL. V. AR TEACHER RETIREMENT, ET AL.

The petition for a writ of certiorari is granted.

Arizona Lawmakers Urge Congress to Count Alternate Slate of Trump Electors

22:34 - 14. Dez. 2020

Yeah, that's really important. There are twice as many tests being performed than being reported. In other states, only the positives are removed, not the negatives. This seems to explain why AZ's positivity seems to always have a higher baseline and why Tests/M seemed low.

1 1

**Hold2**
@Hold2LLC

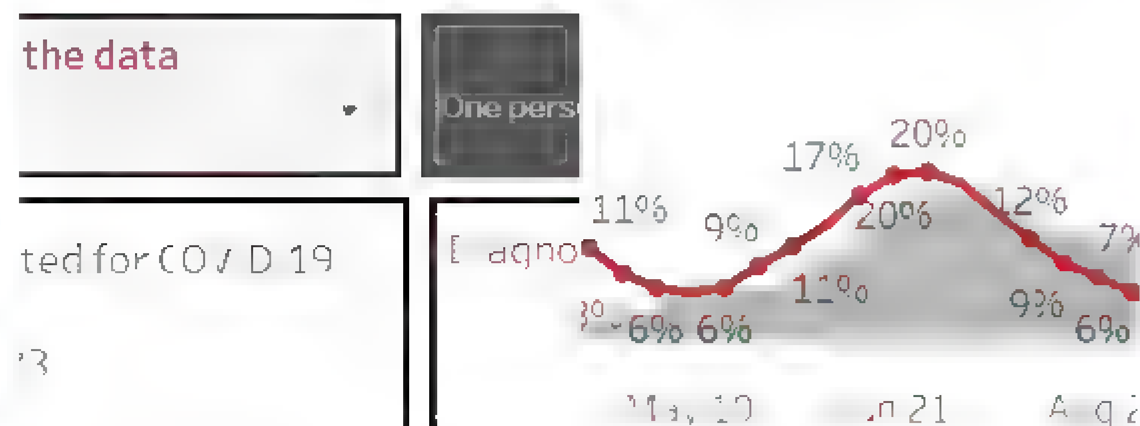

Folgen

Antwort an @Hold2LLC @Garrett_Archer

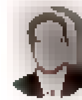

AZ moves from 46th to 25th in Tests/M when counting all the tests, and it puts AZ at the national average.

This all makes much more sense now.

However, not really true on the higher baseline idea. Aug/Sep trough was still no lower than 4%.

That is beautiful. Sometimes we are thinking kind thoughts about people, but never write them down or tell them. Letting our friends and loved ones know how much they mean is so powerful.

Just remembering Christmas as a kid--my dad always suggested we leave Santa a BEER instead of milk. His reasoning: Santa's had a long, hard day. After so much milk, he might like a beer. 🍻
To this day we leave Santa cookies and a beer.
What do you leave for Santa & his reindeer?

"Your baby grows a tooth."

# A Little Tooth

*Thomas Lux*

Your baby grows a tooth, then two,
and four, and five, then she wants some meat
directly from the bone. It's all

over: she'll learn some words, she'll fall
in love with cretins, dolts, a sweet
talker on his way to jail. And you,

your wife, get old, flyblown, and rue
nothing. You did, you loved, your feet
are sore. It's dusk. Your daughter's tall.

I will be praying for Chike, for Joseph, and for you

Praying for the Supreme Court Justices who will hear this critical case for free speech on campus.

Thank you in advance to the entire @AllianceDefends, for defending freedom.

This is the HERO who landed that #SWA plane today. Pilot Tammie Jo Shults was one of the first female fighter pilots in the @USNavy and a native of New Mexican. She really saved a lot of lives today. One woman died from injuries sustained when a window blew-out on the plane.

Regarding my absence on tv:

social media.

I have been off-the-air for several weeks now. Some of you have noticed and have so kindly reached out asking where I am. I appreciate your concern. I'm sorry I haven't responded until now.
Due to my job, I've lived much of my life in a public way, so I'm sure it seems strange that I have gone silent. But the truth is I've needed a bit of privacy at this time. And while I have absolutely no desire to address my absence publicly, the steady stream of inquiries and now some reporters reaching out with a list of questions having very little to do with my absence and only intended to try to damage my reputation or personally hurt me, leads me to address my absence right now.
Since the beginning of January I have been out on health leave using FMLA (Family and Medical Leave Act). I have not been fired, demoted, reprimanded, etc. I remain a 20+ year employee at Fox in good standing.
I will leave it at that—preferring to keep some things private. For those of you who are concerned about me, please don't worry. I will be fine. Thank you for your prayers. I do appreciate, more than you know, your love and friendship.

Friends are easy to find. A true friend is hard to meet!

I feel extremely thankful and grateful for those friends who truly care about me. I never take you for granted. ❤️

When you have a friend who checks on you and wants nothing but the best for you, keep them dear. Such souls are rare.

Ikut

I spoke w/ medical professional involved w/ Arizona's first novel #coronavirus case & another patient transported to the same hospital w/ cv-symptoms. Source says both are ASU students w/ recent travel to China. But only one was tested for the virus. Summary of our convo below. ⬇️

I spoke with a medical professional with direct knowledge of the first confirmed novel coronavirus case at ASU. This medical professional reached out to me on the condition of anonymity because they are not convinced enough is being done to prevent the spread of this highly-contagious virus.

My source tells me a male student came in to an Valleywise Health (formerly known as Maricopa Medical Center) on Saturday with flu-like symptoms. The CDC (who conducts all testing for novel coronavirus) took swabs, then the student was "sent home with a box of masks and told to stay inside and wait for CDC to contact him."

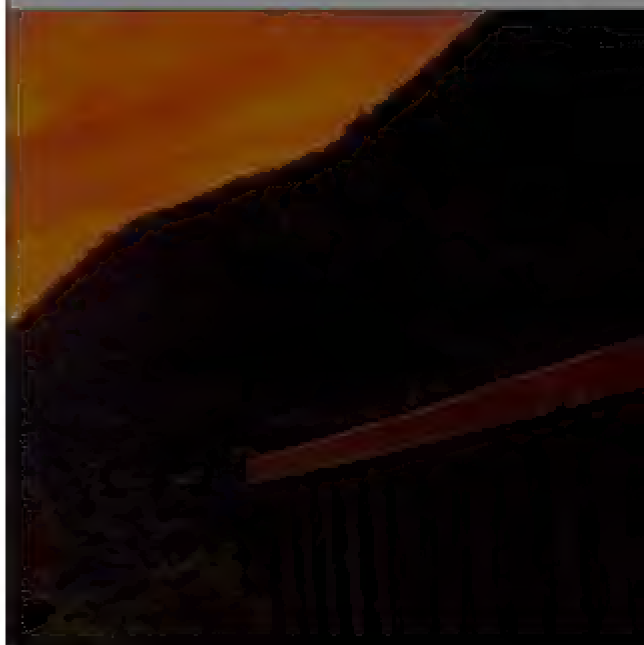

The medical professional was concerned because others could come in contact with the sick student. That student tested positive for coronavirus and is AZ's first confirmed case.

My source was even more concerned with a patient who was transported to the same hospital on Friday with flu-like symptoms, telling me "after a back-and-forth with the CDC they (CDC) didn't even test the patient because he had not been to Wuhan." The student had instead spent winter break in the province NEXT to Wuhan. That sick student was discharged and sent home. Free to come in contact with others. Never tested for CV.
